It's time to call a spade a spade! The USA military has become satanic. This is a fact.

AI Overview

Based on recent reports from January 2026, **Ace of Spades cards** (sometimes referred to as "death cards" or "cards of intimidation") were allegedly left by U.S. Immigration and Customs Enforcement (ICE) agents inside vehicles belonging to individuals detained in Colorado.

Here are the key details regarding this incident:

- **The Incident:** Following the detention of nine Latino community members in Eagle County, Colorado, immigration advocacy groups reported that ICE agents left Ace of Spades playing cards inside the vehicles left behind.
- **The Cards:** The cards reportedly included information for the Denver Field Office and the GEO immigration detention facility in Aurora.
- **Context:** Advocacy group Voces Unidas and others have characterized this action as a form of psychological warfare and intimidation, noting the Ace of Spades was used as a "death card" by U.S. soldiers during the Vietnam War.

They are so obsessed with punishing others by brute force and illogical claims to power that they have no business directing themselves or world affairs. The USA military has gone evil. Period.

I am alerting everyone in no uncertain terms: the USA military is being used to wage psychological warfare against American citizens - **what's next? HOT WAR AGAINST USA CITIZENS**!
